NEW PROJECTS

„Heading for success“ - Headquarter VIB Vermögen AG

Dynamism is the key for success. Therefore we chose dynamic elements in our central design concept: asymmetry in the flooring as well as in the wall design, asymmetrical light strips in the ceiling and as an highlight the impressive steel staircase in the atrium. Its stair sculpture resembles an ascending arrow, inspired by the stock exchange, and symbolises energy and the ambitious visions of VIB. - Got curious? Click here to see more...
